Computer Product Sales

Amtek's has extensive relationships with most OEM's and source just about any computer products needed including: Servers, Printers, Copiers, Tablets, Workstations, etc

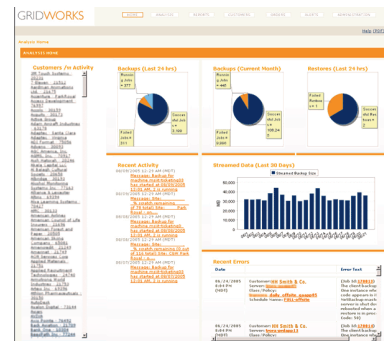

Many of our techs are IBM, HP, Dell, SUN and StorageTek certi-fied. We can provide one technician for short or long term projects

MANAGED SERVICES

Amtek can provide you with a variety of managed service offerings to supplement your IT staff, while helping you stretch your IT budget.

- Monitored Systems – We can remotely monitor your Windows and Linux servers and alert on various anomalies detected. This can be combined with our onsite support agreements where our technicians are automatically notified and dispatched when service is needed - and/or we can notify your IT personnel.
- Remote operations and management of your primary disk (SAN, NAS, DAS), replication, data protection, backups and archive application. We can monitor—alert and notify and offer problem resolution; backed by guaranteed SLAs. We can manage your tape vaulting needs alerting you when to remove tapes for archiving off-site, when to retrieve expired tapes all based on your data retention policies.

MANAGED PRINT SERVICES

Most companies experience as much as a 30% savings on their print-related costs by utilizing Amtek's Managed Print Services. Our services include:

- Printer Analysis/Design
- Remote Monitoring/Onsite Repair
- JIT Supply Management
- Management Reports
- End-User Behavior Modification Tools
- End-User Training/On-Going Education
